CASE-006 | EXHIBIT REGISTER

Physical Trace Register

Crimson Task Force, last updated 20 Apr 2026

EXHIBIT	ITEM	SCENE	STATUS
T-01	Partial glove-fabric impression on door frame	1	Fabric type: nitrile, common brand
T-02	Grey wool fibre (tweed)	2	Same fibre at scene 4; source garment unknown
T-03	Single short grey hair, no root	3	Mitochondrial DNA requested
T-04	Shoe print, size 43, worn heel	3	Right heel worn on the outer edge
T-05	Handwritten note (Blake quote)	3	Handwriting comparison pending
T-06	Red pigment sample R-4	3	Organic; DNA mixture, victim profile only

Investigator note: T-02 tweed fibre at scenes 2 and 4 is the strongest physical link between scenes. Ask every person of interest about tweed garments without disclosing why.

FICTIONAL TRAINING DOCUMENT - created for the TRACE X academic project.
